

IT Security & System Administrator Internship – 100% (Lausanne)

Join a growing Fintech active in the payment system space, in Europe and Switzerland

About CashSentinel

- CashSentinel is a midsize FinTech company that designs and operates MyPortal, a digital contracting, escrowing, splitting, and payout solution for Swiss and European marketplaces. Our typical customers are marketplaces from various fields, automotive professionals as well as other Fintech companies.
- The company handles hundreds of millions of payment flows every year for its clients (e.g. Datatrans, Frau Gerold's Garten, Manor, Zur Rose, Worldline, the Zurich Street Food Festival, Ewigo, Agence Automobile...).
- Founded in 2012 by a young, multicultural, and motivated team, CashSentinel has received numerous awards and distinctions including VentureKick, the Swisscom Startup Challenge, the F10 incubator in Zurich and the Worldline e-payments challenge 2019 and 2020.

Your role

What to expect:

- Manage information systems and networks
- Implement new services
- Maintain systems and networks in optimal security conditions and manage data security risks
- Assist the compliance officer in compliance-related tasks

What we offer:

- Join a young and dynamic team
- Participate in the growth of the company
- Blossom alongside passionate people
- Work in the heart of Lausanne
- Occasional work-from-home possible if needed (to be agreed with the manager)

Your profile

- Bachelor or Master degree in the field of information systems, security or equivalent
- Strong interest in Linux and computer security issues
- A first experience in Linux system administration and/or cybersecurity would be an asset
- Essential personality traits: team spirit, voluntary, positive, rigorous, desire to progress and innovate

Note

- Fluent in English (oral and written), knowledge of French would be an asset
- EU citizen with blank criminal record
- Full-time (80%-100%)
